Conclusion:

It is evident that COVID-19 has a great impact on everyone's lives. The future of education, teaching and Learning during COVID and post COVID needed some drastic adjustments of how to proceed to get ahead. It is also clear that many of the faculty are not aware of tools that are available to teach online. So our FDP aimed at providing a platform for all those enthusiastic teaching fraternity to get the understanding of the tools. The FDP provided all the participants with all the tools that make teaching easy during these testing times.

The FDP had around 600 participants on an average of all days who have attended more than 3 days. Also there are around 300 participants who attended all the days of FDP. The feedback of the FDP also showed the same that all the participants had found it very useful as it is the need of the hour.
